

**DIVA80/06**

Waterpump:  
Reference: pu = 0 bar negative pressure

Vacuum pump: reference:  
suction pressure

**Application:**

Construction Industry - Industry - Municipal Sector

- Averages
- Municipal technology
- Canal restructuring
- Sewage pumping
- Pit pumping
- Thick slurry pumping
- Slime pumping
- Transfer pumping

**Function principle:**

The water pump together with the vacuum generator both powered by Diesel engine ensure a continuous flow of the medium. There is a separator-chamber installed in front of the sewage pump which allows the air of the suction-line to be separated from the water and consequently the water pump conveys only the liquid medium. This combined system ensures a safe and fast suction process.

**Features of DIVA 80/06::**

- Fully galvanized tank frame skid
- Noise protection hood,
- Tank volume 226 l sufficient for at least 73 hours
- Self-priming sewage pump
- Belt transmission
- Dry-running rotation vacuum generator
- less maintenance, no oil change or process water control necessary
- fuel consumption at 100% load: 2,5 l/h
- fuel consumption at 50% load: 1,3 l/h
- sound power level: LWA = 83 dB
- calculated sound pressure level: LPA<sub>7m</sub>=56dB(A), LPA<sub>10m</sub>=54dB(A)

**Special features of DIVA80/07 Longrun:**

- Tank volume 511 l, sufficient for at least one week continuous operation
- Motor oil volume 5 l
